ISSUE	02
AUTHORISED	G. O'Shea

**NOTE:** ENSURE SCORPION SYSTEM IS CLEAR OF MOVING PARTS AND ALL ORIGINAL FUNCTIONS WORK CORRECTLY.

Fitting the supplied valve delete module ensures no CEL (check engine light), no fault codes and full functionality of all drive modes when fitting our non-valved exhaust. Simply plug in to the OEM connector under the car, then use the included cable tie to secure the OE valve harness away from the exhaust. The valve delete module has been designed so that is fully waterproof. Simply fit and forget, no mapping required.
